

Dental & Medical Specialty

*Delivering high-value products to over 35,000 providers since 1972*

## Zeza Premium Bibs

*Keeping Your Patients Clean & Dry*

### Why risk an unhappy patient?

When your patients leave your office to get on with their day, departing clean and dry is a reasonable expectation.

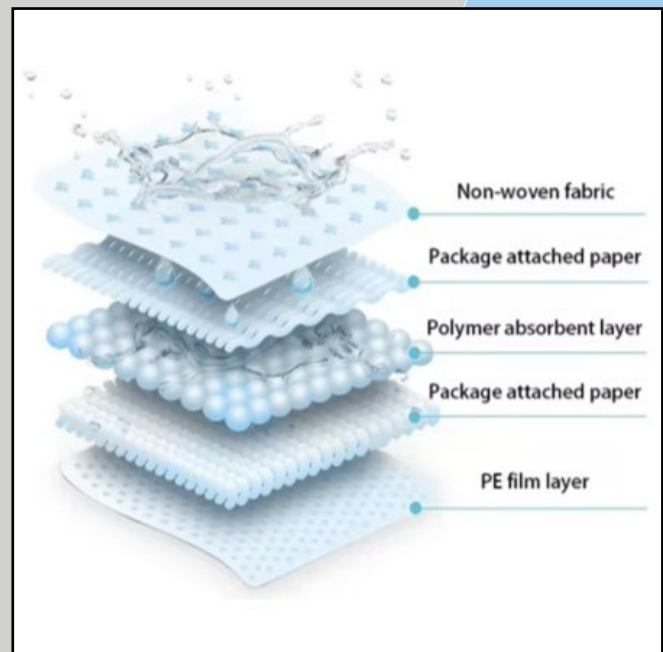

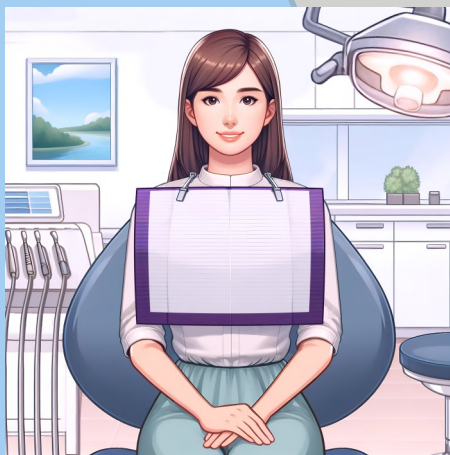

This is a lot to ask of a flimsy piece of tissue.

That's why we created the large, super-absorbent Zeza Bib.

### 5 Layers of Protection 85% More Coverage

Four thirsty layers hold up to 8 ounces (225ml) of fluid. The bottom layer is a moisture barrier.

The overall size protects a much larger area than standard sized offerings.

### How Large?

Standard size: 13" X 18" (234 insq)

**Zeza Bibs: 18" X 24" (432 insq)**

#### Availability

200 Units/Box (PB200A)

50 Unit Sampler Pack (PB50BB)
